Note: Refer to the_

Streaming to a USB-DAC

Selecting a Music File on the USB-DAC

Selecting a CD Using Buttons on the Digital Music Library

N10/N100	
 Notes: To easily access the Digital Music Library via a web browser for remote operation, we recommend creating a bookmark or a shortcut on the home screen. On a mobile device, opening the shortcut allows you to remote 	ly

Copy music files into the displayed folder.

Note: The USB drive will appear as the "Expansion" folder.

Digital Music Library

Playing Music Files on USB-DAC Devices

The Digital Music Library supports USB-DAC, short for "USB digital-to-analog converter". If using buttons on the unit or a mobile device with a controller app installed, you can directly connect a USB-DAC to the Digital Music Library to stream music and enjoy high-quality sound without using a computer.

and enjoy high-quality sound without using a computer.
